Engineer McVichie Awaiting w. H. Tibbals, who recently acquired Instructions to Cut Loose.

SACRAMENTO CON. SALE

SECURED BY WM. HATFIELD-

BIG CONSOLIDATION,

BIG CONSOLIDATION,

BIG CONSOLIDATION,

A letter from the superintendent states that small pockets and bunches of lead ore are being encountered and he is very confident that no great distance will have to be driven to encounter a solid body of pay ore.

President and Manager Tibbals states that a very comfortable sum is in the treasury—a provision he was careful should be made before work commended, and as the mine lies between the State Consolidated and Rabbit's Poot, both producers, he has no fear for the outcome at the Boston & Tintic. thes, returned yesterday from Bland, . M., and a two weeks' vacation in

N. M., and a two weeks vacation in Colorado.

As the final ineuting on the suit stronght by Odlin against the Bingham company, to prevent the absorption of its properties by the \$10,000,000 consolidation, comes up 1000,000,000 consolidation, comes up 1000, Mr. McVichie experts a day or two will see the directors in session at Boston, when plans substitued for the opening and development of the recentive acquired Dalton & Lark and other Bingham mines will be gone over and finally decided upon.

Capitain McVichie says the new company will undertake the most stupendous operations ever undertaken in this state.

Sakt Lake Shareholders Pleased by Latest Report.

Local shareholders were rejoicing yesterday over news that comes from the Beulah company's groperty at Grand Encampment, Wyoming, Superintendent Ledbetter writes that at a distance of 132 feet in the tunnel an eight-yout ledge of quartz, lying between well-defined walls of quartzite and discrite, with two inches of gangue on cither wall, assayed \$4.20 per 160. The big copper ledges for which the sat the being of the entire eight feet. The big copper ledges for which

dous operations ever undertaken in this state.

Work is already under way at the young tunner being driven to tap the monster ere bodies at great depth and at the same time afford an economical and commodious out at for the product. A mammoth compressor plant was ordered several weeks ago, and by the time, it is installed an intermediate shaft will be going down on the line of the tunnel, and possibly two of them, so that work may be pushed from several frace at the same time. At Bland, the captain says, a most encouraging outlook now confronts the shareholders of the Navajo company, in which quite a number of Sal. Lakers are interested. At the water level, after having found the values leached above, the gold values run from \$10 to \$20, with indications that they will still curries; increase as depth is obtained. At Janver the captain abandoned minself to rest and recreation, and reports having had a most enjoyable time.

SACRAMENTO CON. Control Secured by Ratfield-Consolidation Reported.

was an open secret among mining ien of Tintle yesterday that another minint deal in mining ground had in consummated in that camp, and is time in a locality the possibilities which are booked up or with a decent of layer amounting to almost certain by those who are best acquaintivish conditions in the Button-Beck Gemini mines.

the interest to Eureka neople as an deation of what may be expected in a section northwest of Eureka, and e best posted ones predict the next on in that quarter.

company, announced yesterday that work had been resumed and would be steadily prosecuted from now on. A new willim has just been installed and frifting in the vein that was encountered at a depth of 130 feet in the shaft s now in progress.

YANKEE CON. ESTABLISHES A DISAPPOINTING BANK STATE-NEW MARK

May Day was again the center of at-traction on the mining stock exchange loped, which kept the price down in eloped, which kept the news of fresh rikes. St. M being touched shortly after e opening of the call. Bottom was ruck here, however, for the frients of e stock made their influence icit, and e price went up by slow degrees. The ord was passed that the newest strike as one of the most important vet made, d buying orders sent the price up to 10, buyer ten days. This was the top, e close being at \$2.00%. Asax was weaker. The delay in opense up, an ore body in any of the crifts the 1,000-foot, level caused a number holders to tire, and the stock was let from \$1.24 down to \$1.18, closing at 18%.

Lower Mammoth was weak, dropping to \$3.73 on the sale of 400 shares. Ben Butler also lost some of its strength, going from 16 cents to 15 cents. Emerald sold as high as 17 cents on a rumor that there were indications of ore, while the rival crowds in Joe Bowers bid the stock up to 7 cents, with the close at 5% cents. 16,000 shares being sold. Star Consolidated jumped to \$3% cents and sagged to \$1% cents, while Tetro sold from 16% cents down to 15 cents, closing at 15% cents and was to 15 cents, closing at 15% cents. Tankee continued its steady climb upward, touching \$5.45, the highest in its

ward, touching \$5.45, the highest in its listory.

The total sales for the day were \$9.500 shares, for which \$42.421.62 was paid.

More bushness was done in the afternoon than in the forenoon the figures being

than in the \$25,743 and	foreno	on, the	figure	s being

NEWS OF EASTERN STOCK MARKETS

Situation to Settle.

---LOWER MANMOTH WEAK LITTLE TRADING DONE

MENT CAUSED SELLING.

New York, June 24.—The stock market maintained its waiting attitude today. There is a sort of tacit agreement very generally advanced among the larger operators that this waiting period shall extend at least to the end of the month and until the money requirements of the half-year's end are out of the way. The consequence is that the attendance of members in the board room is very small and many brokers have gone away on vacations to Europe.

The smaller class of room traders, who operate from day to day, were disposed to sell the market this morning or the disappointing showing made by the bank statement. St. Paul and Union Pacific were most conspicuously affected by this

were most conspicuously affected by this selling as being most likely to prove vulnerable on account of the recent considerable speculation in those stocks. Little success, however, was had in dislodging any holdings of the stocks and covering by the bears was in evidence later in the day.

in those also the professional hand was seen in the quick realizing on the movements. Norfolk & Western was sold down after the opening on the score of the damage to the property by the West Virginia floods. New York Central showed some strength on vague talk of the coming declaration of some rights for the stockholders. Illinois Central was chiefly bought on the general consideration that it was low in proportion to other grain carrying roads.

The rise in Sugar was due to the adjustment of prices of the product to a parity by the different companies, Manhattan was a feature on reiterated rumors that it will be leased to Metropolitan. General Electric was lifted 9½ by a light demand, but reacted 3½. On the other hand, Colorado Fuel, after selling down 4½ ralled 6½ but did not hold the relly. There was a sharp advance of 6¼ in Minneapolis, St. Paul & Sault Ste. Marle preferred, without expaination. Minneapolis & St. Louis dropped back 2½ on realizing.

It was such individual cases that induced any considerable price movement anywhere in the line. Commission house business was at a standstill and brokers offices were deserted. So little profet is offered by the market that he difficulty was found in securing the adoption by the members of the stock exchange of a recommendation to the governors to keep the exchange closed on Friday and Saturday, July 5 and 6. The money market talled to reflect any construction of supply, such as was indicated by the bank statement, and money on call loaned as low as 3½ per cent.

Business in railroad bonds was of very moderate proportions, and prices moved narrowly either way. Total sales, par value, \$2,190,000. United States \$8 coupon declined ½ per cent on the last call.

Condition of the Treasury. Washington. June 24.—Today's statement of the treasury balances in the general fund, exclusive of the \$150,400,000 gold reserve in the division of redemption, shows: Available cash balances, \$173,245,839; gold, \$97,396,571.

GRAIN AND PROVISIONS.

Chicago, June 24.—There was little interest manifested in the wheat pit and the opening was higher on stronger cables. Commission houses were the best sellers early, but the trading was not maintained. September opened % cent higher at 66%,66%. In sympathy with corn prices it gropped to 66%,666%, but on reports of damage by excessive rains in the northwest a raily followed to 66%, 66%, reacting later and closing 1/60%, cent lower at 66%,666%.

Corn opened stronger on higher cables, together with reports of damage by heat in the west. Receipts continue light and the grading is little improved. There was considerable buying of July by commission houses. September closed with a loss of 1/6.

Oats were dull and wask after some

Oats were dull and weak after some show of strength at the opening, when they were a fraction up from Saturday's close. The feature of the day was the big drop in July, caused by offerings of long July oats, which were apparent throughout the session. Phillips bought September. September closed 1/60% cents lower at 26%.

Provisions ruled firm and notwithstanding some realizing sales of long products

ng some realizing sales of long products of the products of the packers, prices were well maintained. September pork and lard ach closed 10 cents higher, ribs 5 cents bigher. ach closed to cents ligher. The leading futures ranged as follows:

Flour, parrels , Wheat, bushels Corn, bushels ... Pacific Coast Grain Markets.

San Francisco, June 24—Wheat—Steady; December, 100%. Barley—No sales, Corn—Large yellow, quiet, 1.25@1.30.

Portland, Ore., June 24.—Wheat—Walla Walla, 57@58.

Tacoma, Wash., June 24.—Wheat-Un-changed. Bluestem, 61½; club, 59½.

European Crop Situation.

European Crop Situation.

London, June 24.—The Mark Lane Express today in its weekly crop review, noting the necessity for rain in the United Kingdom, says:

"The wheat has come into ear on remarkabity short stems and the ears will fill without more moisture. In France the spring corn is less promising.

"Wheat cutting has been begun in southern Spain. The provinces of Andalusia and Murcia expect fine yields and the promise in central and northern Spain is excellent. The wheat crop in central Europe is very promising on the confines of the Adriatic and very bad indeed on the confines of the Batic. Mediocre results may be expected in Bavaria and Austria.

Visible Supply of Grain.

New York, June 24.—The visible supply if grain Saturday, June 28, as compiled by the New York produce exchange is as folthe New York produce exchange is as follows:

Wheat, 32,903,000 bushels; decrease, 2,236,000 bushels.
